

MOLYDUVAL

Vaseline

White and Pharmaceutic Vaseline

White, translucent, odorless and tasteless, soft vaseline, it meets the requirements of the European Pharmacopoeia and can thus be used for the lubrication in the food and pharmaceutical industries.

Properties

- * relative good compatible with elastomers and seals
- * free of silicones
- * harmless
- * tasteless
- * good tackiness
- * even available in aerosol cans
- * odor less
- * withstands many alcohols and acids
- * good resistant against cold and hot water, even sea water
- * food grade - means all components conform to FDA or similar regulations for use as lubricants in food industry

Applications

- * for bearings in refrigeration equipment
- * for chains in food industry, for packing and filling machines
- * for bearings at funnels and weirs
- * for slide bars in butcheries or slaughterhouses
- * as corrosion preservative
- * for conservation and lubrication of wire ropes
- * for sealing of valves and taps in breweries or at filling machines
- * for sealing
- * for hooks, sleeve elements, rolls, joints, clutches

Specifications

entspricht / meets :
EU Pharm. (BP)
USP
JP
FDA

Technical Datas

Color		white
Base Fluid		Paraffin
Consistency, Penetration 25°C	· 0,1 mm	170
Density 80°C	g/ml	805
Viscosity 100°C	mm²/s	7,4
Melting Point	°C	59

The content of this manual is based on our current knowledge and experience in the development and manufacture of lubricants. Because of the complexity of tribological systems, the effect of our products depends on many parameters, which we cannot assess and which influence we cannot evaluate. For this reason general statements about the function of our products are not possible. The information in this manual, therefore, contains non-binding guidelines, which should give the technical trained reader information on possible applications. The information in this manual does not include property assurances or warranties or guarantees to the properties or suitability of this product in a specific application. Prior to its use it is absolutely necessary to test this product in the application to ensure that the product and its use is safe, economical and fully suitable. It should proceed with due diligence.
